(404) 872-0904*

The ceremony participants included the Honorable Anne Fauver, Council District 6 Representative as well as various members of the community and the Virginia – Highland Business and Civic Associations.

## Virginia Avenue/North Highland Streetscape Improvement Project

The Department of Public Works is pleased to announce the implementation of the Virginia Avenue North Highland Streetscape Improvement Project located in Council District 6.

**Description:** Streetscape improvements will be constructed within the existing right-of-way on North Highland Avenue and Virginia Avenue. The total length of the project is approximately 400 feet on North Highland Avenue and 330 feet on Virginia Avenue.

### Sidewalk Improvements

This project will replace the existing sidewalks on the east and west sides of North Highland Avenue from Virginia Avenue to Los Angeles Avenue. The sidewalks will be constructed with historically appropriate paving treatments (including hexagonal concrete pavers, and granite curbs). The west side will consist of widened 12-foot wide sidewalks; there will be 8-foot sidewalks on the east side. Also, the sidewalk will be replaced on the north side of Virginia Avenue from Highland Avenue to Todd Road.

**Status:** Construction is scheduled to begin early June 2006 and be completed within 6 months.

*Note: The City of Atlanta parking enforcement section is in the process of launching a multi-space meter pilot program. Multi-space meters are currently installed around City Hall and the City Court Complex. If successful, the citywide program will be in place at the time the parking meter installation will occur for the Virginia Highland Streetscape project. The design change will be coordinated during construction.*
